

## Press Release

# High Point Networks to Acquire Communication Systems Specialists, Expanding Low-Voltage and Communications Capabilities.

**Strategic agreement will strengthen the end-to-end business IT solutions offered by High Point Networks and extend its reach in the Minnesota market**

**Coon Rapids, MN — July 16, 2026**

High Point Networks, a leading provider of comprehensive business IT solutions, today announced it has signed a definitive agreement to acquire Communication Systems Specialists (CSS), a respected communications and low-voltage systems installer based in Minnesota. The transaction is expected to close on July 31, 2026. The agreement will broaden the service portfolio of High Point Networks and reinforces its commitment to delivering reliable, high-quality technology solutions to organizations of all sizes.

Once complete, the addition of CSS will strengthen the ability of High Point Networks to support customers across the full technology lifecycle. While High Point Networks delivers network infrastructure, communications, data center services, cybersecurity, cloud solutions, and 24/7 support, CSS brings deep expertise in voice and data communications, low-voltage systems installation, service and maintenance. Together, the companies will offer a more complete solution set for businesses seeking a single, trusted partner.

This agreement reflects a strong strategic fit between two organizations that share a commitment to quality and long-lasting customer relationships. CSS has built its reputation on professional service, attention to detail, and dependable workmanship, values that align closely with the focus of High Point Networks on certified expertise and tailored solutions. By joining forces, both teams will be better positioned to meet evolving customer needs with expanded resources and capabilities.

Customers of both companies can expect continuity of service throughout the transition. Existing relationships, projects, and support commitments will continue uninterrupted, with the added benefit of access to a wider range of services and a larger team of skilled professionals. The combined organization is well prepared to support future growth and deliver greater value to customers, partners, and the broader industry.

Looking ahead, High Point Networks plans to build on the strengths of both organizations to drive innovation, deepen its presence in the Minnesota market, and continue providing the dependable, high-caliber service that customers have come to expect.

### **About High Point Networks**

High Point Networks provides comprehensive business IT solutions for organizations of all sizes, including network infrastructure, communications, data center services, and cybersecurity. With highly certified engineers and 24/7 reliable support, the company partners with more than 35 of the industry's top manufacturers to deliver tailored solutions. High Point Networks was recently featured in CRN's 2026 list of Top 100 Security MSPs.

### **About Communication Systems Specialists**

Communication Systems Specialists (CSS) is a communications and low-voltage systems installer providing quality services in voice and data communications and low-voltage systems installation, service, and maintenance, along

with RCDD design services. Guided by a mission to provide the highest quality solutions and service, CSS partners with customers to understand their needs and build long-term relationships.
